

eBird Mobile App User Guide

****This user guide is based on an iPhone and could be different for an Android. If you are trying the app for the first time:**

1. Download eBird at the app store (free).
2. Log in using your ebird.org information (your website login).
3. The first page should have a button for **choose projects**
4. Click this and select **Birds 'n Bogs**. If you don't see this as an option you might not be added to the project online. Follow [this link](#) to join and it should appear as an option in the app afterwards.
5. Select **continue** to start

6. Type in species names and amount of all birds seen or heard.
Focus especially on target species

The image displays two screenshots of the eBird mobile application interface. The left screenshot shows the initial observation screen with a timer at 00:40 and a distance of 0.25 mi. A red circle highlights the '+ Add observation or find species' button. Below this button is a list of likely species based on 1446 checklists in the 20x20km area, including Snow Goose, Snow/Ross's Goose, Greater White-fronted Goose, Cackling Goose, Canada Goose, Cackling/Canada Goose, Trumpeter Swan, Trumpeter/Tundra Swan, goose sp., Blue-winged Teal, Northern Shoveler, and Gadwall. The right screenshot shows the same interface at 01:18 with a distance of 0.52 mi. A red circle highlights the 'Stop' button at the bottom right. The species list is updated to include 2 Lesser Yellowlegs, 4 Red-necked Grebe, and 1 American Robin. Both screenshots show a 'Birds 'n' Bogs' header and a bottom navigation bar with icons for settings, chat, and a checkmark with a '3' badge.

7. Click **Stop** when you are finished with your survey, it will automatically log your time and distance.
8. Choose your location based on the offered map, use the official eBird hotspot wetland name.

Is this a complete checklist of the birds you were able to identify?

Yes No

Comments

Wind at a 2, 52F, no rain, overcast. loose dog scared some ducks at the shoreline

3 Species

2	Lesser Yellowlegs
4	Red-necked Grebe
1	American Robin

Submit

9. Make sure Birds 'n' Bogs appears at the top of the checklist. Double check observer number, time, distance.
10. Only share a checklist if you surveyed with other people and they would like to add the sightings to their own checklists without everyone keeping separate surveys going. You do not need to share with Birdsnbogs, the project will find data that is tagged with the project.
11. Is this a complete checklist of the birds you were able to identify? Select **Yes** as we are inputting all birds seen and heard.

12. Add into the comments:

- a.** Air temperature (F)
- b.** Cloud cover: 0-10% 11-25% 25-50% 50-75% 76-100%
- c.** Precipitation: No rain, Mist, Light rainfall, Moderate rainfall, Heavy rainfall
- d.** Wind speed (0-6):

0	Still
1	Light wind
2	Can feel the wind on your face
3	Leaves and small twigs moving
4	Moderate breeze. Small branches moving
5	Small trees swaying
6	Large trees swaying, umbrella hard to open

- e.** Any notes on banded birds seen (most likely in Anchorage area)

13. Click **Submit**. You can check your submitted checklist section on the app to confirm your checklist was recorded or to make any edits after submission.
